Nebraska Agricultural Statistics

ANNUAL REPORT 1980-1981

NEBRASKA DEPARTMENT OF AGRICULTURE

Bert J. Garvin, *Director*
Richard Maresh, *Deputy Director*

Cooperating with

UNITED STATES DEPARTMENT OF AGRICULTURE

Statistical Reporting Service
W. E. Kibler, *Administrator*
Wilbert H. Walther, *Deputy Administrator*

Issued July 1982, by the
NEBRASKA CROP AND LIVESTOCK REPORTING SERVICE

Jack L. Aschwege, *State Statistician*

William C. Dobbs
Assistant State Statistician

The material for this publication was assembled by Charlotte R. Rowe, Editorial Assistant.

PREFACE

Information in this statistical summary of Nebraska agriculture is the result of thousands of voluntary reports from farmers, ranchers and agribusiness firms. Much of the detail needed for county estimates was collected from farmers and ranchers by mail with the Annual Agricultural Survey and acreage and livestock surveys. County extension staff, local lending institutions and the National Weather Service have also contributed through weekly reports on weather and crops. Cooperation of other State, University and USDA agencies is also appreciated.

The Nebraska Department of Agriculture and the United States Department of Agriculture cooperate in collecting and compiling these agricultural statistics. Under this cooperative agreement, the Nebraska Crop and Livestock Reporting Service publishes over 100 statistical reports annually covering most Nebraska agricultural commodities.

Livestock and number of farms estimates were prepared by Dennis Johnson. Crop estimates were prepared by Rudy Wagner and Scott Keller. Mark Aitken was responsible for poultry, prices and farm labor estimates. Rex Patterson and Rick Geesey were responsible for much of the data collection activity including summarization of the Annual Agricultural Survey. Computer programmers and system design staff of Stan Schmidt, Jim Stepanich and Mike Hanus played an important role in processing regular monthly reports and other State Department of Agriculture activities. Bill Dobbs supervised the technical staff, reviewed estimates and book contents.

The organization and tabular material were prepared by Mrs. Charlotte Rowe, who also coordinated the typing, assembling, proofreading and checking of this book. Many other hours of tedious checking and proofing were accomplished by the clerical staff.

To request current reports issued during the year or copies of this report write Bert J. Garvin, Director, Nebraska Department of Agriculture, 4th Floor 301 Centennial Mall South, P.O. Box 94947, Lincoln, Nebraska 68509, or Jack Aschwege, State Statistician, P.O. Box 81069, Lincoln, Nebraska 68501.

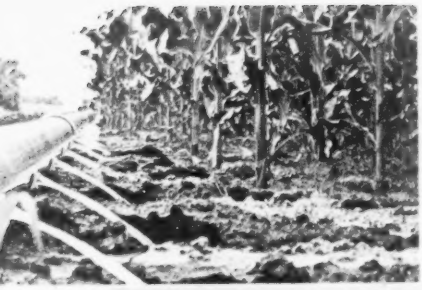
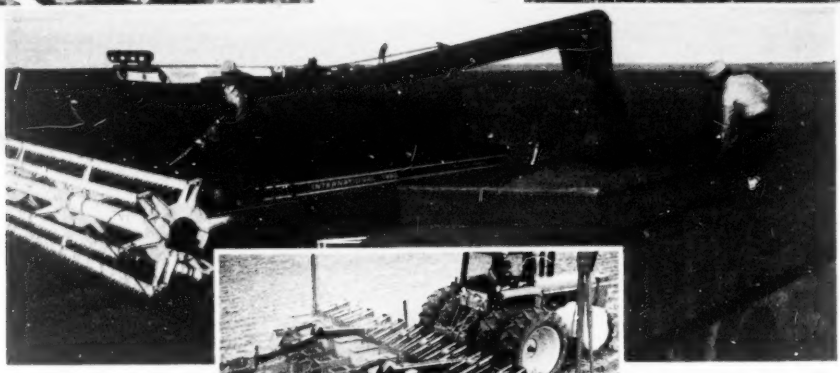
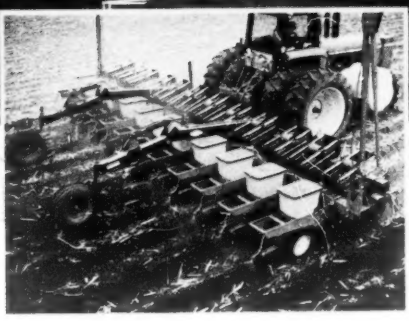
NEBRASKA—RANK IN AGRICULTURE

RANK:	
1st	Fed cattle and calves marketed, 1981. Number--4,050,000.
1st	Commercial cattle slaughter, 1981. Number--5,919,700.
1st	Popcorn production, 1981. Pounds--308,000,000.
1st	Alfalfa meal production, 1981. Tons--562,400.
1st	Great Northern beans production, 1981. Cwt.--2,118,000.
2nd	Sorghum silage production, 1981. Tons--945,000.
2nd	Cattle on feed, January 1, 1982. Number--1,640,000.
2nd	Commercial livestock slaughter, all species, 1981. Thousand lbs.--7,562,213.
2nd	Commercial red meat production, 1981. Thousand lbs.--4,666,186.
2nd	All cattle and calves, January 1, 1982. Number--7,250,000.
3rd	Value of all cattle and calves on farms, January 1, 1982 -- $2,936,250,000.
3rd	Sorghum grain production, 1981. Bushels--164,800,000.
3rd	Corn for grain production, 1981. Bushels--802,700,000.
4th	Pinto beans production, 1981. Cwt.--1,700,000.
4th	Land in farms and ranches, 1981. Acres--47,700,000.
4th	Beef cows and heifers that have calved, January 1, 1982. Number--2,148,000.
5th	Cash receipts from all livestock marketings, 1980. $3,570,282,000.
5th	Dry edible beans production, 1981. Cwt.--3,850,000.
5th	All hay production, 1981. Tons--7,165,000.
5th	Red kidney bean production, 1981. Cwt.--32,000.
5th	Capacity of commercial grain storage facilities, January 1, 1982. Bushels--547,790,000.
5th	Sheep and lambs on feed, January 1, 1982. Number--85,000.
5th	Corn silage production, 1981. Tons--7,440,000.
5th	Alfalfa hay production, 1981. Tons--5,115,000.
5th	Calves born, 1981. Number--1,970,000.
5th	All hogs and pigs, December 1, 1981. Number--4,100,000.
5th	Pigs saved, 1981. Number--6,269,000.
5th	Rye production, 1981. Bushels--798,000.
6th	Winter wheat production, 1981. Bushels--106,200,000.
6th	Cash receipts from farm marketings, 1980. $6,074,689,000.
6th	Commercial hog slaughter, 1981. Number--4,445,600.
6th	Value of principal crops produced, 1981. $3,865,239,000.
6th	Sugar beets production, 1981. Tons--1,887,000.
7th	Harvested acreage, principal crops, 1981. Acres--19,291,000.
7th	Value of farm real estate, 1981. $31,439,000,000.
8th	Soybean production, 1981. Bushels--82,680,000.
9th	Cash receipts from crops, 1980. $2,504,407,000.
10th	All other hay production, 1981. Tons--2,050,000.
10th	All wheat production, 1981. Bushels--106,200,000.
11th	Oats production, 1981. Bushels--15,405,000.
11th	Alfalfa seed production, 1981. Pounds--1,750,000.
12th	Honey production, 1981. Pounds--4,880,000.
16th	All potato production, 1981. Cwt.--2,472,000.
16th	All sheep and lambs, January 1, 1982. Number--225,000.
28th	Barley production, 1981. Bushels--897,000.

Crops







CROP REVIEW

By Rudy Wagner

Nebraska's 1981 production index for all crops set a new record, up 29% from 1980 and 8% from the previous record for 1979. Both higher acreage harvested and high average yields contributed to the increase.

Total acreage harvested at 19.3 million was up 2% from 1980 and 6% from 1979. The record high yield index increased 24% from 1980's heat and drought stricken crops and 1% from the previous record for 1979. Most crop yields surpassed 1980 with wheat being the most notable exception. Record high yields were established in 1981 on irrigated corn for grain, sorghum for grain, soybeans, sugar beets, and equalled on all corn for grain. Record production was set on irrigated corn for grain, sorghum for grain, soybeans, dry edible beans, sugar beets and popcorn. Record high soybean and dry edible bean acreages were harvested.

Statewide, precipitation during calendar year 1981 was 5% above normal. Half of the crop reporting districts were above normal with the Southwest District showing the greatest percentage increase followed by the South Central. The greatest decline below normal was shown in the Northeast followed by the East Central. Precipitation statewide was above normal for March, May, July, August, November and December and lower for remaining months. Greatest percentage increases above normal were for November followed by December, March and July. Greatest declines from normal were for January followed by February, June and September.

The 1981 winter wheat crop was seeded with adequate moisture conditions in Western areas, thereafter moisture was short until spring rains arrived. In the east, dry conditions slowed seeding and germination. Precipitation was adequate after mid-October allowing the crop to enter winter in mostly fair to good condition. Mild winter weather limited winter kill. An early spring produced a well advanced crop that was vulnuerable to freezing temperatures on May 10 and 11. Most freeze damage was limited to fields in a small number of Southern counties. Losses at the State level were more than offset by 50% above normal rainfall in the important Western areas. The wheat crop experienced little heat stress while maturing and harvesting was completed about a week ahead of normal. Chinch bugs lowered yields in some eastern counties for wheat and then damaged nearby sorghum.

Dry topsoil conditions coupled with above normal spring temperatures allowed row crop planting to start early. Planting completion was near normal as much needed precipitation arrived during late May. Above normal temperatures and well below normal rainfall occurred during June and continued into July, placing heavy stress on row crops with fears of another drought and poor pollination on corn. A turnaround in prospects came about mid-July. Satisfactory moisture conditions and below normal temperatures were general for the balance of the growing season which improved yields, but delayed maturity and harvest progress. Normal temperatures and drier conditions in November brought harvesting to a near normal completion. Corn grown under irrigation in 1981 accounted for 72% of total acreage harvested for grain and 81% of total production.

1981 CROP PRODUCTION HIGHLIGHTS & COMPARISONS WITH 1980

Corn for Grain	-- 802.7 million bushels	- up 33%
	6.98 million acres	- down 2%
	**115 bushels per acre	- up 30 bushels
Soybeans	-- *82.68 million bushels	- up 56%
	*2.12 million acres	- up 20%
	*39 bushels per acre	- up 9 bushels
Winter Wheat	-- 106.2 million bushels	- down 2%
	2.95 million acres	- up 4%
	36 bushels per acre	- down 2 bushels
Grain Sorghum	-- *164.8 million bushels	- up 35%
	2.06 million acres	- up 1%
	*80.0 bushels per acre	- up 20 bushels
Dry Edible Beans	-- *3.85 million cwt.	- up 41%
	*220,000 acres	- up 47%
	1,750 pounds per acre	- down 70 pounds
Sugar Beets	-- *1.887 million tons	- up 6%
	78,300 acres	- down 8%
	*24.1 tons per acre	- up 3.2 tons
All Hay	-- 7.165 million tons	- up 1%
	3.7 million acres	- unchanged
	1.94 tons per acre	- up .03 ton

* New record high. ** Equals 1979 previous record high

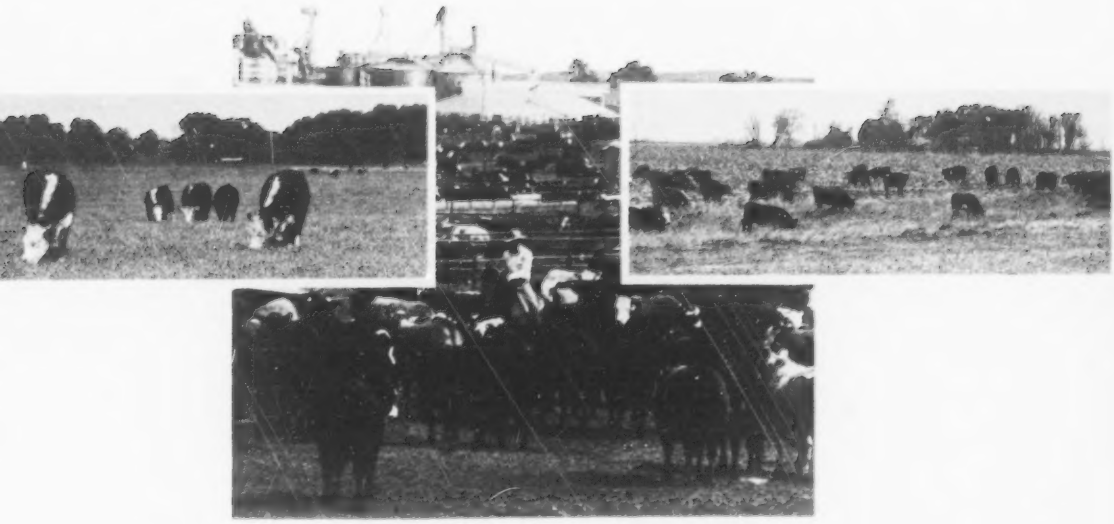
Livestock



LIVESTOCK REVIEW

By Dennis Johnson

CATTLE

Nebraska farmers and ranchers increased the total number of all cattle and calves on hand January 1 for the second consecutive year. Total numbers on hand, at 7.25 million, were up 6% from the previous year and represented the highest inventory for the date since 1974. Cattle on feed for the slaughter market on January 1, 1982 numbered 1.64 million, the same as a year earlier. The number of beef cows that have calved reached 2.15 million, 5% above a year ago. Beef cow replacement heifers on hand on January 1, 1982 totaled 327,000, up 12% from a year earlier. Calves born on Nebraska farms and ranches in 1981 totaled 1.97 million head, the same as 1980.

Dairymen had 122,000 milk cows on hand at the start of 1982, up 1% from January 1, 1981. Milk production during 1981, at 1.4 billion pounds, increased 6% from the previous year's output. Average yearly milk production per cow reached a record high 11,382 pounds.

Although the all cattle numbers increased 6%, the total value of the inventory, at 2.9 billion dollars on January 1, 1982, fell 6% from the previous year. Average value per head dropped from $455 last year to $405 this year.

HOGS AND PIGS

Hogs and pigs on Nebraska farms on December 1, 1981 numbered 4.1 million, an increase of 5% from the previous year. The total pig crop for 1981 was 6.27 million pigs saved from 845,000 sows and gilts for an average of 7.42 pigs per litter. The December-May crop of 3.10 million pigs was saved from 415,000 sows. The June-November period showed 3.17 million pigs saved from 430,000 sows.

The total value of the December 1, 1981 inventory, at 305.4 million dollars, was down 1% from a year earlier. The increase in inventory was more than offset by a drop in value per head. Average value per head fell from $79.00 in 1980 to $74.50 in 1981.

SHEEP AND LAMBS

Sheep producers had an inventory of 225,000 sheep and lambs on hand January 1, 1982, 10% below a year earlier. The inventory consisted of 140,000 stock sheep and 85,000 sheep on feed, down 7% and 15%, respectively. The 1981 lamb crop, which consists of lambs born from October 1, 1980 through September 30, 1981, was 143,000, 28% above the 1980 crop. Wool production during 1981 totaled 1.73 million pounds, 7% more than a year earlier. Total value of wool produced in Nebraska during 1981 reached 1.30 million dollars, up 7% from 1980.

Average inventory value per head of $54.50 was down $11.00 from last year. Total inventory value of 12.3 million dollars on January 1, 1982, was 25% below a year earlier.

POULTRY

Chickens in commercial and farm flocks as of December 1, 1981 numbered 4.15 million, up 4% from the previous year. An average of 3.46 million layers during the year produced 802 million eggs for the year ended December 1, 1981, compared to 847 million for the previous year.

Total value of the chicken inventory at 8.1 million dollars increased 6% from last year. Average value per bird moved up a nickel from a year ago to $1.95.

Turkeys raised in Nebraska during 1981 totaled 680,000, down 16% from 1980.

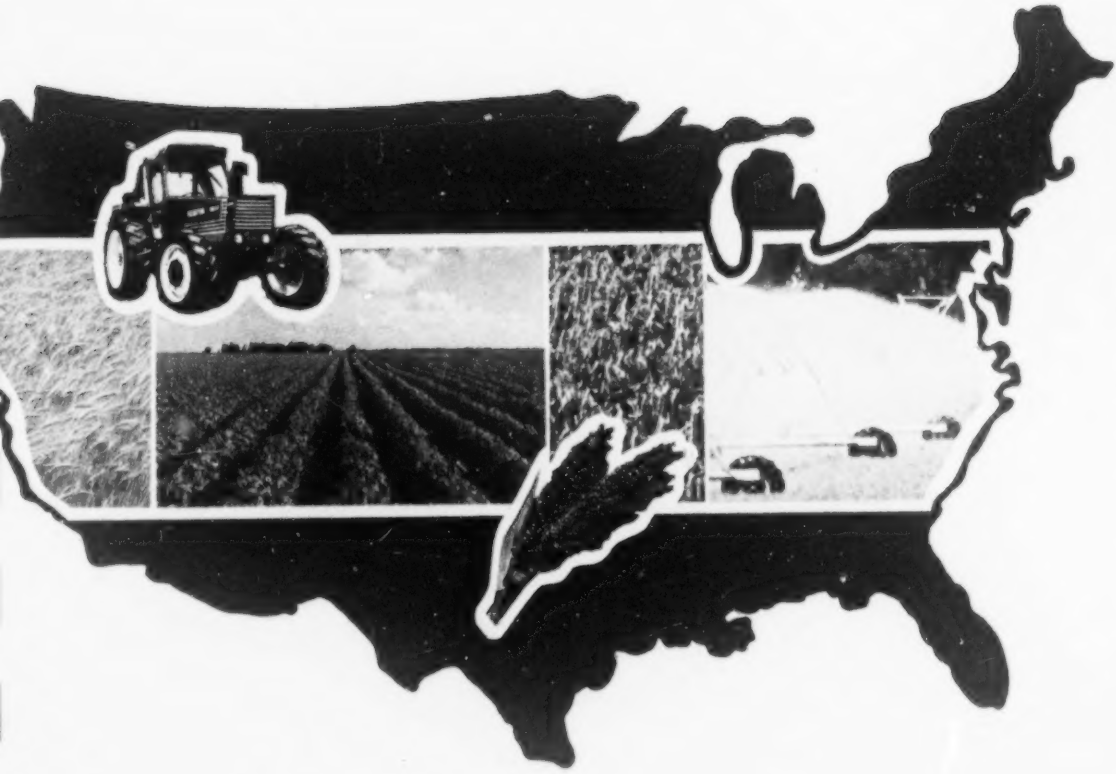
Prices and Income



PRICE REVIEW

by Mark Aitken

The Nebraska Index of Prices Received by Farmers for 1981 averaged 151 (1977=100), 3% above 1980 and 6% higher than 1979. The index peaked in July at 159, then declined sharply over the last five months to a low of 136 in December. During 1981, record high prices were received in some months for dairy cows, corn, oats, baled hay, dry edible beans and eggs.

The 1981 Livestock and Livestock Products Price Index averaged 150 (1977=100), down 1% from 1980 and 4% below 1979. The index began the year at 150, and reached a high of 159 in July before falling off to 139 at the close of the year.

Average monthly cash prices for steers and heifers ranged from $58.50 per cwt. in December to $66.40 per cwt. in July. The average for the year was $63.20 per cwt., $3.50 below 1980 and $5.50 below 1979. The yearly average price for cows (excluding dairy herd replacements) was $41.50 per cwt., $4.30 lower than 1980. Monthly average prices ranged from a high of $44.30 per cwt. in August to a low of $35.90 per cwt. in December. Calf prices averaged $67.80 per cwt., $10.90 below the 1980 average. Prices varied from a low of $60.40 per cwt. in December, to a high of $72.50 per cwt. in February.

Prices received for all hogs averaged $43.70 per cwt. for the marketing year ending November 30, 1981. This was $5.60 above the average for 1980. Prices were lowest in March at $38.50 per cwt. and highest in August at $49.20 per cwt.

Lamb prices averaged $54.50 per cwt. for the year, $9.80 below 1980. The monthly average price ranged from a high of $67.00 per cwt. in May to a low of $44.50 per cwt. in November.

All milk sold to plants during 1981 averaged a yearly record high of $13.40 per cwt., $0.70 above 1980. January and February prices were highest, averaging $13.80 per cwt., while the lowest average price was received in July at $12.90 per cwt.

Producers received an average of 47.1¢ per dozen for eggs sold during the 1981 market year, an increase of 7.6¢ per dozen over the 1980 average. The market year started with prices averaging 52.7¢ per dozen in December 1980, then dropped steadily to a season low of 41.5¢ in June. Prices increased sharply toward the end of the marketing year and finished at a season high of 59.5¢ per dozen in November. The monthly egg price series was discontinued in December 1981.

The Nebraska All Crops Index averaged 151 (1977=100), 8% above 1980 and was the highest on record. Average monthly indexes peaked at 164 in April, but then steadily declined to a low of 132 in both October and December.

Nebraska wheat prices began the year averaging $4.02 per bushel and steadily declined to a low of $3.60 in September before closing the year at $3.72 per bushel. Average corn prices ranged from a record high $3.19 per bushel in March, April, and May to a low of $2.40 per bushel in December. Oat prices began the year at $2.04 per bushel and rose to a record high $2.15 per bushel in June. The low was reached in August at $1.81 before a late upswing to $2.00 per bushel at year's end. Average prices for grain sorghum were on the decline for most of 1981, beginning the year at $5.29 per cwt. and falling to a low of $3.72 per cwt. in October and November. Soybean prices also showed a downward trend for the year, starting at $7.50 per bushel in January and dropping to the year's low of $5.69 per bushel in December. All baled hay began the year at $60.00 per ton, dipped to a low of $56.50 in May, reached a record high of $65.00 in July, and finished the year at $58.00 per ton. Dry edible bean prices also hit a record high in 1981, with a June price of $34.40 per cwt., before tailing off to a low of $21.50 in December.

An Index of Prices Paid by Farmers is unavailable at the State level, so direct comparisons between income and expenses for Nebraska farmers cannot be made. However, at a national level, the average Index of Prices Paid by Farmers for All Commodities and Services, Interest, Taxes and Wage Rates in 1981 was 155 percent of the 1977 base year, 1% above a year earlier. This compares with the National average Index of Prices Received by Farmers of 138, 2% above the 1980 index.

(Income and Expenses are covered on pages 141-148)

FARM INCOME

by Scott Keller

Cash receipts from farm marketings in Nebraska are estimated to total 6.4 billion dollars in 1981, up 3% from last year's previous record level. The 1981 crops cash receipts establishes a new record high, while livestock fell below the last two years.

Livestock receipts accounted for 55% of the State's 1981 total receipts and totaled 3.5 billion dollars, 1% below 1980 and 9% below the 1979 record. A new record high crop sales of 2.9 billion dollars showed a 14% increase over 1980, the previous record high.

The Index of Prices Received for All Farm Products was record high as a moderately higher Crop Price Index combined with a slightly lower Livestock Price Index.

Nationally, cash receipts from farm marketings were forecast to reach 143.0 billion dollars during 1981, up 5% from 1980. Receipts from livestock at 68.5 billion dollars were up 2% and crops 74.5 billion dollars increased 8%. Government payments, at 1.6 billion dollars, increased from 1.3 billion a year earlier.

State and National estimates of farm production expenses and net farm income were not available at this time.

UNITED STATES—AVERAGE PRICES PAID BY FARMERS FOR FARM MACHINERY AND TRACTORS, 1980-1981

COMMODITY AND UNIT	March		June		September	
	1980	1981	1980	1981	1980	1981
	Dollars					
Plows, Moldboard, Drawn or Mounted, One-way:						
3-Bottoms, Each	2,000	2,210	---	---	2,070	2,310
5-Bottoms, Each	5,270	5,820	---	---	5,400	6,120
7-Bottoms, Each	7,920	8,860	---	---	8,350	8,970
Chisel Plows, Deep Tillage, Chisel or Sweep Type, Drawn or Mounted, 18 ft., Each	3,630	4,060	---	---	3,750	4,260
Disk Harrows, Tandem, Drawn 1/:						
13 ft., Each	3,970	4,320	---	---	4,200	4,730
16 ft., Each	6,030	6,490	---	---	6,320	7,100
19 ft., Each	7,800	8,650	---	---	8,240	9,200
Field Cultivators, Mounted or Drawn:						
11 ft., Each	1,960	2,020	---	---	---	---
18 ft., Each	3,230	3,460	---	---	---	---
Grain Drills With Most Common Spacing:						
Plain, 16 Tubes, Each	4,120	4,400	---	---	4,160	4,620
With Fert. Attach., 13 Tubes, Each	4,120	4,330	---	---	4,260	4,560
Press, 24 Tubes, Each	6,650	6,960	---	---	6,800	7,870
Corn Planters:						
Plain, 4-Row, Each	4,810	5,400	---	---	---	---
With Fert. Attach., 4-Row, Each	5,960	6,930	---	---	---	---
With Fert. Attach., 8-Row, Each	11,700	13,500	---	---	---	---
Feed Grinder-Mixers, Trailer Mtd., P.T.O., Each	5,930	6,680	---	---	---	---
Farm Bulk Milk Cooler, Direct Expansion Type, 500-700 Gal. Capacity, Each	6,750	7,290	---	---	---	---
Tractors - Wheel Type						
2-Wheel Drive:						
30-39 P.T.O. or Belt HP, Each	9,200	10,000	9,330	10,400	9,440	10,500
50-59 P.T.O. or Belt HP, Each	13,200	14,600	13,300	14,900	13,800	15,200
110-129 P.T.O. or Belt HP, Each	31,200	34,300	31,300	35,400	32,500	36,200
4-Wheel Drive:						
170-240 P.T.O. or Belt HP, Each	61,900	67,400	62,300	71,600	65,700	71,700
Self-Propelled Combines, With Grain Head:						
Medium Capacity, Each	---	---	47,500	54,200	49,200	57,000
Large Capacity, Each	---	---	66,500	75,900	69,000	77,800
Corn Head for Combine, 4-Row, Each	---	---	9,230	10,300	---	---

1/ With transport wheel and hydraulic lift, less tires.

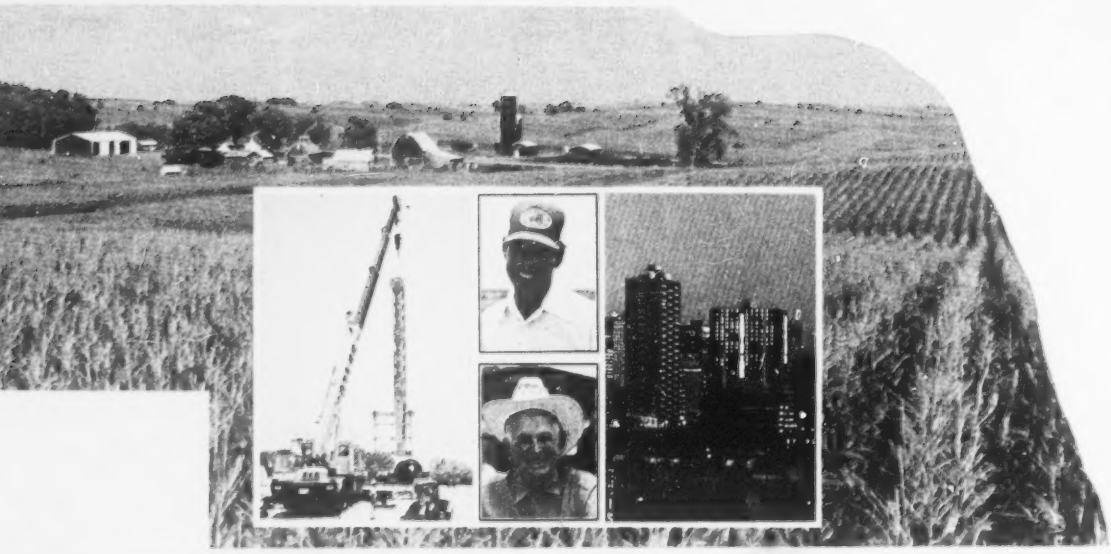
1/ Includes bulbs, plants and trees. 2/ Repairs and maintenance of buildings, repairs and operation of motor vehicles and other machinery, and petroleum fuel and oil used in the farm business. 3/ Includes short-term interest, pesticides, electricity and telephones, livestock marketing charges, containers, irrigation, grazing, veterinary services and medicines, net insurance premiums and other miscellaneous items and supplies.
4/ Includes cash wages, perquisites, and (1951 to date) Social Security Taxes paid by employers. 5/ Includes depreciation and accidental damage to farm buildings and depreciation of motor vehicles and other farm machinery and equipment.

General



GENERAL COMMENTS

By Bill Dobbs

Precipitation averaged 23.8 inches during 1981 in Nebraska, 37% and 6 inches above 1980. This was the seventh highest average in the last twenty years and eighth largest in forty years. Statewide, precipitation averaged 5% above the normal 22.7 inches. An early dry spring and above normal moisture during July and August produced many excellent crop yields and large crop outputs. Precipitation was below normal during January, February, April, June, September and October and above in all other months.

Farm numbers in Nebraska totaled 65,000 during 1981, unchanged from 1980. Average farm size held steady at 734 acres. New acreage being put under irrigation at 300,000 acres surpassed last year's increase by 50,000 acres. Total acres with facilities for possible irrigation reached 7.5 million acres compared with 7.2 million in 1980 and 6.95 in 1979. There were 2,532 wells registered during 1981, slightly more than the 1,966 registered in 1980, but much lower than annual registrations of over 5,000 wells for the period 1975-1977.

Fertilizer sold in Nebraska from July 1, 1980 - June 30, 1981 totaled 2.0 million tons, down 2% from last year's record high annual consumption for the State. About 97% of the State's corn acres received some fertilizer, up 1% from a year earlier. The rate of fertilizer applied per acre of sample corn fields nearly equaled 1979 and was sharply above a year ago for nitrogen (N), potash (K_2O), and phosphate (P_2O_5). About 64% of the wheat acreage was fertilized during 1980, up 7% from the last two years. Rate of application per acre increased for N, K_2O and P_2O_5. Soybeans received less fertilizer per acre and only 19% of the State's acreage received fertilizer, down from 28% last year. Estimates of other crops are not available.

Sales of retail commercial feeds in Nebraska totaled 1.8 million tons during the July 1, 1980 to June 30, 1981 period, down 1% from a year earlier.

Nebraska's share of agricultural commodities exported during 1981 totaled $2.1 billion, up 9% from a year earlier. Feed grains and products accounted for 56% of the total compared with 58% last year.

1981.....	---	---	---	2,435,810	1,044,700	429
1982 3/....	---	---	---	2,437,030	1,045,805	429

1/ Places of 10 or more acres that had annual sales of agricultural products of $50 or more and places of less than 10 acres that had annual sales of $250 or more.
2/ Places with annual sales of agricultural products of $1,000 or more. Series starts 1975.
3/ Preliminary.

DISTRIBUTION & SOURCE OF NEBRASKA AGRICULTURAL STATISTICAL DATA

Reports on many commodities are available free to individuals and firms that may be asked to provide information on surveys made by the Nebraska Crop & Livestock Reporting Service. Others may receive the reports on a subscription basis. Timely summaries of all major reports are provided the news media, radio and TV stations, and educational establishments to serve Nebraska farmers, ranchers, and others with agri-business interests. The title of current reports covering Nebraska and national agricultural estimates, month of publication, and source of data used to obtain the estimates are shown in this table.

CURRENT REPORTS

Commodity	Publication month of report	Source of data for estimates
CROPS:		
Winter wheat seedings	December	Farm & ranch operators
Prospective spring plantings	February	Farm & ranch operators
Acreage forecasts	June	Farm & ranch operators
Yield & production forecasts	Monthly during growing season	Farm & ranch operators & field measurements 1/
Annual small grain summary	December	Farm & ranch operators
Annual row crop summary	January	Farm & ranch operators
Stocks of grain (farm & off-farm)	Jan., Apr., June, Sept. 2/, Oct.	Farm operators & mills & elevators
Weather - crop	3 P.M. Monday--April thru Nov. Monthly--December thru March	County Extension Agents, Lending Institutions & National Weather Service
Wheat varieties	February	Farm & ranch operators
Soybean varieties	February	Farm & ranch operators
Millet production & varieties	January	Farm & ranch operators
LIVESTOCK:
